STONY PLAIN.

ALBERTA. THURSDAY, FEB. 14, 1929.

Whole Number 445

The Lutheran Church and Religious Education.

A decaying Protestant Church is today crying for more religious education. Lutherans have at all times taken seriously the Words of God.

Matthew 28, 18: "Make to disciples all nations by (a) baptizing them and (b) TEACHING them to observe all things whatsoever I have commanded you,

Ephesians 6, 4: Ye fathers... bring up your children in the nurture and admonition of the Lord.

Deut. 6, 6: These words which I have commanded thee this day shall be in thy heart and shalt teach them diligently unto thy children.

In keeping with these words the Lutheran Church (Missouri Synod) maintains two Normal Schools with a total enrolment of over 600 students who are preparing to be teachers in Lutheran Day Schools. St. Matthew congregation maintains two Christian Day Schools in which religion takes its proper place with the other prescribed courses—The fear of the Lord is the beginning of wisdom.

Brightbank Briefs.

Three passed away, Tuesday, Feb. 12th, an old resident of Brightbank district in the person of Mrs. Margaret Dickie, relict of the late T. Dickie. Deceased was in her 65th year, and had been suffering from pneumonia.

The funeral took place today, Feb. 14th, to Inga cemetery. Rev G. A. Sauder, pastor of United Church, officiated.

United Church Notes.

At Spruce Grove, on Sunday last, a very pleasing part of the service consisted of three special songs by a male septette from Glory Hills district. The congregation was good.

At the evening service in Stony the sermon delivered by the pastor, Rev G. A. Sauder,

was the subject "The clay in the hands of the Potter." The church was well filled.

Notice to Creditors and Claimants.

IN THE ESTATE OF GEORGE STEVENS, late of Stony Plain, Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above-named George Stevens, who died on the 22nd day of January, A.D. 1928, are required to file with the Solicitor for the Executors entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

DATED this 12th day of February, A.D. 1929.

GEORGE J. BRYAN,
Solicitor for the Executors.

LOCAL NEWS.

Geo. F. Harris, the insurance agent, was a business visitor in Stony on Saturday.

After being confined to his residence for some nine weeks thru illness, Mr Michael was able to get down to his place of business on Saturday.

The Advance Rumely Power Farming School, which opened here on Saturday, drew a good crowd, those at present power farmers, and prospects. The school was under the auspices of Stony Plain Hardware, who are the agents for Rumely. Three sessions were held. The firm is to be congratulated on the success of the affair.

The New Chevy Six demonstration in Wudel's hall was a huge success. At the evening showing the hall was packed, with standing room only—and not much of that. At the close of the lecture by the factory expert the prizes were drawn for. Lady's prize, Miss Mary Hennig; gents, Mr Val Hennig; juveniles, Miss Kulak.

The Strass Construction Co. is putting the finishing touches on another new bungalow on Third St. w. When completed, this will be occupied by Mr Louie Strass and family.

Woodley—Burger.

In Edmonton, Wednesday, February 6th, by the Rev Mr MacKay, Miss Beulah Burger (daughter of Mr and Mrs August Burger) was united in marriage to Mr Robert Valentine Woodley (son of Mr and Mrs Harry J Woodley). Both the contracting parties are from the Holborn district. The happy couple have taken up their residence on the bridegroom's farm, a mile west of Holborn Hall.

Meehan—Gray.

A very beautiful and unique event took place at Stony Plain on Wednesday evening, Feb. 6th, when Miss Gladys Mary (Queenie) Gray was united in marriage to Mr John Ernest Meehan, both recently arrived from Belfast, Ireland.

The bridal party entered the church to the strains of Mendelssohn's "Wedding March," Mrs R M Oatway at the organ.

The bride was charmingly gowned in shell pink georgette with an overskirt of tulle and carried a bouquet of carnations.

Mr Giles Clarke acted as groomsmen; while Mesdames Sauder and Duplessis were bridesmaids. Little Enid Sauder was flower girl.

The ceremony was performed by Rev G. A. Sauder, at the United Church, which was crowded to the doors.

After the ceremony a public reception was given at the Manes, where games were played and dainty refreshments served.

The happy couple were the recipients of many beautiful and costly gifts.

Mr and Mrs Meehan expect to reside in Edmonton.

Education and Leisure

It has long been the boast of Western Canada that its people are intensely interested in education. With pride the people have drawn attention to the fact that in towns and villages the most outstanding structures are the schools, while the vast expanse of prairie has been dotted with rural schools, the number of which in the three prairie provinces now approximates closely to ten thousand. These thousands of rural and village schools, larger public and high schools in the towns, still larger schools, collegiate institutes and colleges in the cities, and the three Provincial universities, are but the visible expression of the determination of the people of the West that the children of this and future generations shall not only thus be "prepared for life," but that they shall come to realize that education is life, inasmuch as it is both the accompaniment and the experience of life.

It is said that education is entering upon a new era. No doubt it is, because in this changing world we are always entering upon new eras, and education must be likewise. The basic aims, the great objectives of education abide. Methods change and the setting varies, but it remains true that health is fundamental, the tools and techniques of learning are necessary, citizenship is inescapable, service is a radiant star, home is man's great joy, leisure is liberty, and character is humanity's highest good.

Education is not confined to school and college. It does not even begin there, and certainly it does not end there. School is but a means to an end. Through it certain knowledge is imparted, but if that were all our schools would be a dismal failure. At best, schools in imparting knowledge give us tools to use, and, to some extent, train us how to use those tools and others which we will acquire as we journey through life. But education is not passing examinations from one grade to another or the attainment of degrees. Education is a training of the mind and equipment to enable us to meet all the joys and pleasures, the pains and sorrows, the duties and responsibilities, the vicissitudes of life, and put them all to the highest possible use.

An educated nation, it has been said, is one that has learned to pursue its interests to the point of a true and catholic culture, to penetrate its prejudices until it has come at truth, and to discover that every man has a contribution to make to the great society in the service of which he attains to freedom.

Five or six years ago, the National Council of Education held a great and noteworthy conference in Toronto, the theme of which was "Education and Life." In April, 1911, it will convene another conference in Vancouver, with the general scheme of its programme "Education and Leisure." The subjects for discussion by noted speakers and authorities from all parts of the world include: Literature; The Moving Picture; Music and the Drama; The Radio; Organized Play; Recreation; Hobbies and Handicrafts; Health in Relation to Leisure.

Life is divided into hours of work, and hours of leisure. It has, however, become customary to consider education almost wholly in terms of work, and little thought has yet been given to education in its relation to leisure. The Lord Chief Justice of England, recently said that "seconds only to drink, the real cause of crime is the difficulty of finding healthy recreation and innocent amusement for the young." The free hours of a large proportion of youths and adults are occupied with harmful and trifling pleasures. We must realize that it is when the young are idle that they form the habits which may later ruin their lives.

Modern machinery which is steadily displacing man in the production of man's material needs, is producing an ever increasing number of leisure hours. Education in the present and future must concern itself with the provision and enhancement of interests to occupy the leisure of both the child and the adult. There must be interests which education alone can give if men are to gain the faculty of using leisure easily, happily and fruitfully.

Such interests can be found in good literature, in music, in useful hobbies and handicrafts, in organized health-giving play and recreation. Organized games provide education in self-control. To "play the game" is instinctive to youth; developed to its fullest, this natural gift becomes an asset of great national worth and importance in the evolution of a high type of citizenship.

Labor unrelieved by recreation produces fatigue, and fatigue produces hate, lawlessness and despair. Recreation undirected, unregulated, futile, produces vice, degeneration, and helplessness. Play is the natural expression of all the inborn instincts. When a man is natural and at his best, it is his spirit that plays.

Parents and teachers may well give greater heed to the trend of these modern days, and devote greater and close attention to the encouragement of proper use of the leisure hours of the children under their care.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville's. Half a teaspoonful of Nerville in water makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminatory organs, and rid the system of disease-breeding germs. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Need Continual Warning

Public Seem to Forget Menace of Level Crossing

While the ideal thing would be to eliminate every level crossing in the country—and steps toward that end are being taken—it will be many years before this menace to public safety is a thing of the past. In the meantime the public must be continually warned.

If every person would get it firmly fixed in his mind that each level crossing is dangerous and that each one must be so regarded when approaching it, the death toll from this source will be materially reduced. Motorists cannot afford to fool with level crossings.

RHEUMATIC PAINS DUE TO THIN BLOOD

Relief Comes Through the Use Of Dr. Williams' Pink Pills

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief, and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thinned and weaker. The cure of rheumatism, therefore, you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills have proved so beneficial when taken for this trouble. They make new, rich blood which expels the poisonous acid and the rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills. That they are now free from the aches and pains of this dreaded trouble. One of these, Mrs. W. F. Tait, of Oakville, Ont., who says:—"I am one of the willing ones to tell you of the great benefits I received from the use of Dr. Williams' Pink Pills. After lying in bed for seven weeks suffering untold agony with inflammatory rheumatism, relief finally came through the use of this medicine. I could not move in bed only as they lifted me, and I could not sleep when my spasms were given me. The medical treatment I was taking seemed to be no avail. Then I was asked to try Dr. Williams' Pink Pills, and soon I began to get relief. After taking six or eight boxes the rheumatism was banished and I have never felt better in my life. It is several years since this happened and I have had no return of the trouble since. I may add that I recommended the pills to two of my friends who were suffering with rheumatism and the pills were equally effective in both cases."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a rest that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from Dr. Williams' Medicine Co., Brockville, Ont.

Livestock Industry Prosperous

The livestock industry of Alberta was responsible for a revenue of \$8,775,257 in 1928, according to D. A. McKenzie, Dominion markets representative. The livestock industry is enjoying a measure of prosperity which should encourage those engaged in this branch of agriculture to face the future with confidence, he stated.

Miller's Worm Powders will purge the stomach and intestines of worms so effectively and so easily and painlessly that the most delicate stomach will not feel any inconvenience from their action. They recommend themselves to mothers as a preparation that will restore strength and vigor to their children and protect them from the debilitating effects which result from the depredations of worms.

If we dig down into the earth to a depth of about 25,000 feet we find a temperature of 200 degrees.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Great Britain uses less than one-half the amount of paper consumed in the United States.

There may be other corn removers, but there will not be completely effective unless you have used Holloway's Corn Remover.

May Be the Reason

Women's feet are now two sizes larger than they were twenty years ago, according to an orthopedic expert. It is this because she has been trying to fill man's shoes.

Freedom From Asthma. Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kollege's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Wonders Of Suez Canal

Business Has Grown Enormously Since Waterway Was Opened In 1870

Advices from Port Said express the opinion that the passing through of the huge Singapore Dry Dock in two sections is the greatest feat ever accomplished by that waterway, although usually ships pass through the canal in 15 hours. In 1870, the year after the canal was opened, the average time of passage was 48 hours, and the largest ship accommodated was one of 4,414 tons. Today ships of 27,000 tons pass through the canal. Last year 5,645 ships with a total net tonnage of 28,962,048 passed through with transit receipts amounting to \$42,000,000. In 1870 the number of vessels was 436 with a tonnage of 436,609, while the receipts amounted to \$5,584,000.

Use Minard's Liniment For The Flu.

The Father—"Well, Johnny, don't you want to come in and see the new little state the stork brought you last night?"

Four-year-old—"None, but I'd like to see the stork."

FOR NEURALGIA

AYER
ASPIRIN

You doubtless depend on Aspirin to make short work of headaches, but remember that it's just as dependable an antidote for many other pains! Neuralgia? Many have found real relief in an Aspirin tablet. Or for toothache; an effective way to relieve it, and the one thing doctors are willing you should give a child—of any age. Whether to break up a cold, or relieve the serious pain from neuritis or deep-seated rheumatism, there's nothing quite like Aspirin. Just make certain it's genuine; it must have Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to ensure the public against imitation, the Tablets will be stamped with their "Bayer Cross" trademark.

A venerable Scot purchased a radio set. A few days later his friends asked him how he liked the set. "Well, it's aw right to listen to, but those bulbs are nae guid to read by."

Minard's Liniment for the Grippe and Flu.

Sparrows at Mayence, France, are artistic. Before building nests they wait for an annual rose carnival, then make their homes with confetti picked up from the streets.

Don't Neglect Bronchial Colds
 Pneumonia, "flu" and other dangerous maladies develop from common colds. To prevent trouble take Buckley's Mixture. It quickly relieves the cough and restores the voice. Different from old-fashioned syrups. It's a scientific combination of proven virtues. Sold by all druggists and guaranteed.

Necessity Of Sowing Pure Seed If Grower Expects To Secure Highest Returns From His Farm

While admitting the importance of high fertility and good cultivation as essential for a good seed-bed, let us not forget the importance of sowing good sound seed, pure as to variety, free from weed seeds, of high vitality, and which has been treated for smut.

The time never was more opportune or more ripe for the necessity of sowing pure seed than it is today.

With the ever-increasing weed problem, and the multiplicity of varieties that are on the market, the time is at hand when we must sow pure seed, if we expect to reap the highest returns from our farms.

The wide-awake farmer does not wait until the last minute to prepare and clean his seed, and will always be found ready when seeding time arrives, to sow seed that has been cleaned, of good germination, and which has been treated for smut.

The practice of the Modern Experimental Station, in regard to seed grain, is to clean all grain intended for seed purposes shortly after freeze-up and to forward two-pound samples to the Dominion Seed Branch, Winnipeg for grading and germination test.

With the long winter days, when the farmer has ample time to spare, why not crank the little gas engine, start the fanning mill going, get the seed grain ready, and be prepared for the big rush in the spring.

For those farmers who are intending purchasing seed grain, now is the time to get busy. Don't delay, but secure your seed early, then you will have no worries about seed grain when spring opens up.

In a seed grain survey made in Manitoba, one farmer was sowing seed supposed to be Marquis, but upon analysis, only 60 per cent. was Marquis, while the other 40 per cent. consisted of weed seeds, and other varieties of grains.

We cannot hope to produce grain that will maintain our high standards on world markets if more attention is not given to the seed we sow. Experimental Farm Note.

Wealth And Wisdom

Getting of Gold Does Not Require Exceptional Ability

"And where shall wisdom be found?" Mr. John Rosewald, a man of great fortune, replies in a "movie-tone" that it is not in mere wealth. Most people, he says, believe that because a man has become wealthy, his views on any subject are valuable; but he holds that most large fortunes have been made by men of mediocre ability, who "tumbled into a lucky opportunity." The friend of Job who came to comfort him said that wisdom could not be "gotten for gold." Mr. Rosewald's 20th century corollary is that getting of gold does not imply special wisdom in the getter.

Solved The Difficulty

My little niece's mother was trying to get the hated spinach down the child's protesting throat!

In the middle of her attempts Shirley—who is three and also at the make-believe stage—said, "Let's play, Mamma."

"Well, all right," answered mother. "What shall we play?"

"Let's play you're the little girl and I'm your mamma."

"Very well," agreed her mother.

"Now you eat the spinach!" commanded Shirley.

"I want your legal help. Schools knocked out one of my teeth." "I will get you compensation." "But you can't get compensation from a dead man."—Lustige Blätter, Berlin.

W. N. U. 1772

FASHION

Paris Model

A charming little Parisian model smartly shirred across front, fashioned of English print with white pique collar and cuffs. Fashioned of printed wool jersey, with plain self fabric contrast, navy blue wool crepe, tan linen with brown French bias sateen with tiny white polka dots with white pique or pale blue chambray, are very striking and serviceable. Collegiate Tours Enable Students to See Old World Attractions at Small Expense

The advent of Spring and early Summer will see thousands of care-free young men and women; college students, teachers, doctors, lawyers, artists and other professional folk packing their suitcases, bidding adieu to their friends, and boarding ocean liners for a voyage to Europe. Not so long ago trips of this kind were confined to a few fortunate folk with a good deal of money at their disposal, but nowadays the Collegiate Tours, organized by the Art Crafts Guild of Chicago in conjunction with the Canadian Pacific Steamships, has enabled young people and others of limited means to travel and see the world. In former times a superficial knowledge of

one's own country was considered sufficient for the ordinary person but in these days of intense competition it is acknowledged that some idea of other countries, particularly those of the Old World, is desirable both from the standpoint of an employer and from that of the person who would deem himself or herself really well informed.

These collegiate tours which leave several times a month from Montreal and Quebec, offer steamship accommodations varying from the increasingly popular and economical tourist third cabin to the regular cabin class. They are conducted by experienced people and offer varying itineraries including England, Holland, Belgium, France, Germany,

Switzerland, Italy and other countries. "Tourist Third" must not be confused with regular third class, for it is a recent innovation in overseas travel and provides good, clean, comfortable surroundings, an appetizing well-prepared menu, jovial and well-bred travelling companions and the run of a large part of a first-class liner at a very considerable reduction over the regular first cabin and cabin prices.

The St. Lawrence route to Europe is extremely picturesque and provides a river voyage of 1,000 miles before the open Atlantic is reached. Deck tennis, bridge parties, dancing on deck and other forms of entertainment speed the voyagers on their way.

Best Peas For Canning

Experiments Show Alaska Variety Gives Highest Yield

The canning of peas has grown into an industry of considerable extent in many parts of Canada. In the province of Nova Scotia it has become an established industry. To find out the best varieties of peas to grow for this purpose a series of experiments was carried out at the Experimental Farm, Nappan. The important factors looked for as described in the report of the superintendent, published by the Department of Agriculture, Ottawa, in the varieties were uniformity of ripening, freedom from worms and disease, and the yield of crop. The variety Alaska, gave the highest yield of 7,895 pounds of marketable seed to the acre. This variety produces a smooth round pea, with pods well filled that ripen fairly uniformly and has the appearance of excellence for canning purposes. Horsford Market Garden, yielded at the rate of 5,445 pounds of marketable crop per acre. This variety did not ripen as uniformly as Alaska and is more susceptible to blight at the base of the stem. The Lincoln gave 6,816 pounds of crop to the acre of a very smooth round pea that is slow in developing. Advancer, a pea of medium size lacks uniformity in ripening and blights early. It yielded 5,445 pounds of marketable seed per acre.

Key To Markets

The Canadian Agricultural Products Representative in Great Britain, W. A. Wilson, claims that the quality of Canadian bacon is satisfactory to the British trade. The key to the markets now, he says, is "production." Greater numbers of hogs and a steady increase every year are what the British buyers of Canadian bacon would appreciate most.

The Natural History Museum in South Kensington, the Science Museum in Exhibition Road, the Museum of Practical Geology in Jermyn Street, and the Royal Botanic Gardens, with the Herbarium and Museums at Kew, are four great scientific museums in the London area maintained solely or chiefly from public sources. Each has its visitors of the sightseeing kind. Each has its clientele of serious specialists, who visit the collections with a defined purpose, and who know something of the continuous research that lies behind the public exhibitions.

Those museums however, and their trained staffs have an immediate practical utility, on which much stress is laid in the Interim Report of the Royal Commission on National Museums and Galleries, because they are an invaluable and not sufficiently recognized agency in the development of industry and of industrial enterprise. A much larger part of the time of the staff than is generally understood is occupied not merely by curating and abstracting research, but in studying and advising on problems of immediate practical moment.

Insects dispute man's lordship of the earth more seriously than any other living creatures by direct attack on his food, his health, and his habitations. If an insect plague is to be fought the exact species must be identified as a first step towards distinguishing between harmless and harmless and towards finding out the weakest point in the life history against which measures may be taken with most chance of success. Advice is sought from the staff at the Natural History Museum. The whaling industry is recognized to be in grave peril from reckless exploitation. When it was decided to collect knowledge on a sufficiently broad basis for the devising of international protection and regulation the Natural History Museum was at once called on. The scientific staff of the Discovery expedition is now at work at the Museum examining the results of their inquiries in southern seas.

One example is sufficient to prove the practical advantage to the Empire and the world of the Royal Botanic Gardens at Kew. The cultivation of rubber and the industries dependent on it represent a value of hundreds of millions of pounds, and have become possible through the agency of Kew. In June, 1875, F. B. Wickham arrived at Kew with 70,000 seeds of the Brazil wild rubber tree, which he had been commissioned by the Indian Office to collect. These were sown in a space of 300 square feet. Some 2,500 germinated, and in August 1900, were sent to Ceylon in charge of a skilled gardener. About 1,700 reached Dr. Thwaites at the Peradeniya Botanic Gardens in excellent condition. The plants were established in Ceylon, and the plantations of Para rubber in India, Burma, Malaya, and elsewhere are the result.

At the Museum of Practical Geology the expert staff are constantly giving advice and information on ores and minerals of economic value and on gems and ornamental stones. The Science Museum is designed to illustrate and add the application of science to all branches of industry, and these functions it performs by a magnificent library and by loan collections and apparatus.

"Is that number 99?" "No, it is number 66," but we turned the number upside down for the sake of a change."—Sondagsnisse-Strix, Stockholm.

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Preparing For Air Service

Aerodromes—Are To Be Built In South African Jungle

Jungle aerodromes are being laid out in Africa in preparation for the air service from Cairo to Johannesburg. Thousands of trees have had to be felled and their roots dug up to provide landing spaces. Anti-bills have been, in many places, removed by hand, as no other means were available. Some of them were over 25 feet in height. Experimental flights are to be made next summer as a preliminary to the regular service. The whole journey of 5,600 miles will take five or six days instead of two months by existing means of transport.

To Prevent "Flu"

INFLUENZA GERMS FIRST ATTACK THE NOSE AND THROAT

Dangerous germs which lodge in the breathing give you Grippe, Flu, or Influenza. You can destroy these germs if you cleanse your nose, mouth and throat with Catarrhoxone. When the healing vapor of Catarrhoxone is inhaled it releases powerful antiseptics which destroy every vestige of germ life.

Protect yourself against "Flu" by using Catarrhoxone; it stops a cold in a few moments, cleans the nostrils, takes soreness out of the throat. All the irritating matter in the nose and throat that smells so bad, that gives you a headache and makes you cough—Catarrhoxone clears it all away.

For Influenza, Catarrh, Nose Colds, Irritable Throat, you will get prompt and effective action from Catarrhoxone. Carry an inhaler in your purse or pocket, etc. Use it frequently. Complete outfit \$1.00. Smaller size 50c. at all dealers.

Tooth Weighs 300 Pounds

The largest tooth in the world, 11 feet 2 inches long and weighing more than 300 pounds, has just arrived at the Harvard Dental School Museum. It came from the jaw of a mastodon, and scientists estimate that it is more than 50,000 years old. Before the task was found in Alaska, the largest known specimen was the 9-foot one in the Carnegie Museum, Pittsburgh.

Business Was Good

Four million miles of flying were recently completed by the cross-channel fleet of the Imperial Airways. Since 1924 the company's planes carried more than 97,000 passengers and 5,000 tons of freight between London and the continent of Europe.

The only difference between the composition of the sugar on your table and the gasoline in your car is that the sugar contains a gas called oxygen which the gasoline does not.

THINNESS

Over-thinness is detrimental to a child's progress in growth and health.

Scott's Emulsion

of vitamin-rich cod-liver oil is a body-building food and tonic that overcomes thinness and helps build up a sturdy body.

Scott & Bower, Toronto, Ont. 25-61

Four European Tours

C.N.R. Complete Arrangements For Personally Conducted Trips This Summer

Pennies are being saved, and History and French are being brushed up by scores of Western Canadians who are looking forward to a tour of Europe this coming summer. Early as it is in the season, the Canadian National Railways have already announced the completion of arrangements for their four annual personally conducted European tours. The Cunarder, "Andania," will leave Montreal on July 5, and from the word "Go!" it will be high holiday for the school-teachers and other lucky ones who are on board.

Motor jaunts through England and Scotland will take its places. Scotland will take its places. Names make the imagination quiver—Melrose Abbey, Holyrood, Abbotsford, Warwick Kenilworth, Stratford-on-Avon, Oxford, Hampton Court, Stoke Newington, there will be a steamer port on Loch Lomond, a visit to the Trossachs, and days in Glasgow, Edinburgh and London. Then there will be a long stay in Paris and a journey to Versailles and to the battlefields.

Those who stay in Europe longer will visit Brussels, and Cologne, and Switzerland, and the travellers will have the joy of going down into Italy—Milan, Venice, Florence, Rome, Genoa—and to Nice and Monte Carlo. The first return steamer, the "Aurora," will depart from Southampton on August 3; the second, the "Aurora," from Cherbourg, on August 10; and the third, the "Aurora," from Cherbourg, on August 21.

Mothers Warned Of Colds That Follow the Flu

Attack Weakened System and Pave Way For Pneumonia or New Case of Influenza

BEST TREATED EXTERNALLY

Physicians advise that the chief danger in this epidemic is after influenza. Then, more than ever, cold attacking the weakened system may lead to bronchitis, pneumonia, or a second and more severe case of flu. This is especially true of children.

Flu nearly always leaves the stomach upset. Internal medication, should, therefore, be avoided, as it so often further disturbs the digestion and the recuperation.

But if a fresh cold comes, don't let the child keep it overnight. Don't rub Vicks on throat and chest at bedtime. As it is applied externally, Vicks can be used freely even on the youngest child, with no fear of upsetting a delicate stomach.

Vicks acts two ways at once (both absorbed and inhaled) to check the cold and avoid serious complications. And, of course, it is just as good for adults.

Transforming Palestine

A powerhouse is being erected on the River Jordan a few miles below the Sea of Galilee. The river drops 1,000 feet in 104 miles. Automobiles, electric lighting and steam railway trains are working a transformation in Palestine.

Minard's Liniment For Coughs and Colds.

W. N. U. 1772

WORLD HAPPENINGS BRIEFLY TOLD

A report that Russia and Japan had severed diplomatic relations was officially denied in Moscow.

Thirty-two named or numbered varieties and strains of spring wheat were tested at the Central Farm at Ottawa in 1927.

Captain Isaac Coffin, believed to have been the last survivor of the Crimean War, is dead, aged 93. He was born in St. John, N.B.

Production of automobiles in Canada during the calendar year 1929 reached a new record of 242,352 cars, having a sales value f.o.b. plant of \$151,826,338.

Four million miles of flying were recently completed by the cross-channel fleet of the Imperial Airways. Since 1924, the company's planes carried more than 97,000 passengers and 5,000 tons of freight between London and the continent of Europe.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on the foot or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this and you'll never come. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and cures out the corn, quickly and without pain.

SUNDAY SCHOOL LESSON

FEBRUARY 17

PRAYER

Golden Text: "If ye abide in Me, and My words abide in you, ask whatsoever ye will, and it shall be done unto you."—John 15:7.

Lesson: Genesis 18:23-33; Exodus 32:21, 32; Nehemiah 14:11; Daniel 6:10; Matthew 6:1-13; Luke 18:1-14; John 17:1-26; 1 Thessalonians 5:17; 1 John 5:14, 15.

Devotional Reading: Psalm 121, 1-8.

Explanations and Comments

Prayer Should Be Sincere. Mt. 6:7.—And when ye pray, ye shall not be as the hypocrites; for they love to stand and pray in the synagogues and in the corners of the streets, that they may be seen of men. It was the appearance of righteousness that the hypocrites covet, not the righteousness itself.

"To be seen of men is, after all, one of the incentives to human conduct. Some people go into reckless extravagance in order to be seen of men as rich; and the average person would rather be seen to have certain qualities than actually to possess them."—H. S. Brewster.

"Verily I say unto you, 'They have received their reward,' said Jesus in regard to the hypocrites. The Greek word translated, 'received' means 'received in full,' and is the one used in drawing up receipts. They have received the full reward which they sought, they have been seen of men, and this was what they desired, they have no claim whatsoever to any further reward.

"Nor will he to those lips attend, Whose prayers are not sincere."—John Buxton.

But thou, when thou prayest, enter into thine inner chamber, and having shut thy door, pray to thy Father, who is in secret. The inner chamber with closed door stands for any place where we are alone with God. For Nathaniel it was under the fig tree, for Peter, it was on the housetop. Jesus himself chose the mountain-side and the garden for His communing with His Father.

When you pray shut out the world and shut yourself in with God. "Dew falls, we are told, only when the atmosphere is still, and the dew of prayers will fall abundantly on our souls only when we are at leisure." Jesus is not disparaging public prayer (which He elsewhere commends), but He is emphasizing the need of sincerity which private prayer affords.

And thy Father who seeth in secret shall recompense thee.

The Many-Purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Eucletic Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and neuralgia, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Once when mother spoke of reducing his meat expenses.

Western Canadians To

Tour Maritimes

Principal Towns and Beauty Spots Will Be Visited

In an effort to bring closer together the East and the West, Dr. F. W. Falls, publisher of the "New Outlook," the official periodical of the United Church in Canada, is organizing, with the co-operation of the Canadian National Railways, a tour of the Maritime provinces for the benefit of Western Canadians. The tour will leave Toronto by special Canadian National train on June 17, visiting Ottawa, Montreal, Quebec, going by steamer up the Saguenay River, thence by rail to the principal towns and beauty spots of New Brunswick, Nova Scotia, and Prince Edward Island. More than 80 persons from Winnipeg and the west are expected to take part in the tour, which will be personally conducted.

Variety in London

Odd conditions are frequently brought to light in connection with the boroughs of London. Often opposite sides of streets are in different boroughs. One pavement will be illuminated by incandescent gas lamps across the road electric light is used. The dustbins of the "odds" are more frequently emptied than those of the "evens." A child living at No. 41 may attend a school from which No. 42's infants are barred.

General William Booth started the Salvation Army standing on a soap box outside a saloon in the East End of London.

The most important phase of aerodynamics which is developing in Canada is the use of aircraft in mineral exploration and development.

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 60 years ago, it has remained the standard with physicians everywhere.

"His wife used to be a peach." "She still is. She's a peach O' Reno."

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. "Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A married man says that he was always fond of tongue—and he likes it still.

Reduce the Acid

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knif-edged carton at grocer, druggist or stationer. For less coating use get "Centre Pull" Pack-in sheet form.

Appleford Paper Products LIMITED HAMILTON - ONTARIO

Western Representatives: HUNTER-MARTIN & CO., REGINA, SASK.

FRANCE WILLING TO RENOUNCE PENSION RIGHTS

Paris.—A determined effort to insure the economic rehabilitation of Europe will be made when the international committee of experts on reparations begins its sessions here.

Statement that France would waive nearly \$6,000,000,000 in pension rights granted her by the Versailles Treaty, indicates that a conciliatory spirit will be shown to promote solution of the tremendous financial problem left by the world war.

The treaty provided that Germany must pay the French pension bill, estimated to be 150,000,000 francs. France, it was understood, would demand from Germany only restitution for damage done to French property and a sum equivalent to the French war debt to the United States and England.

The problem of the experts is to determine how much Germany can pay without being crippled, and how many years she should be allowed in which to pay it. The exact total of reparations never has been fixed and it has become obvious that Germany never could pay the staggering total which the Allied nations would like to get—about \$300,000,000,000.

Economic experts point out that Germany cannot be stabilized economically or industrially until she knows definitely how much she has to pay and can regulate finances accordingly.

War debts will be treated as a corollary by the European experts, whose governments, in effect, hold that their debts to the United States must be paid out of German reparations. The United States has held consistently that the debts are a separate issue and are payable whether Germany provides sufficient reparations or not.

A third problem is the evacuation of the Rhineland. A plan is being considered to withdraw the troops and substitute an Allied commission of control in the Rhineland.

Radio For Peace River

Premier Brownlee Outlines Year's Plans For North Country

Edmonton, Alta.—Short-wave radio stations to link up isolated points in Alberta's north, pending the carrying of telegraph communication to such points; an intensive search for water in areas where water is scarce; three survey parties on soil surveys, and a survey party to examine the pre-Cambrian Shield in the northeast of the province for mineral possibilities, are among plans for the Peace River country this year, Premier Brownlee told the Alberta legislature.

Killed During Formation Flight
Pensacola, Fla.—Branwell P. Howell, 24, and Andrew Brink, 21, attached to the naval flying squadron here, were killed when their aeroplanes crashed in mid-air during a formation flight.

"Marratt's Treatment"
At this season of the year when an intestinal "flu" is prevalent and in this age, when so many are worried by high blood pressure and "nerves," too much care cannot be taken to keep the system entirely free from poisons and impurities. Marratt's has for many years been found most valuable in toning up the liver, in keeping the intestines functioning normally and in preventing bile stagnation. Try this highly recommended treatment now.

Five Dollars
Recommended and sold by all leading druggists.

Seeking Right To Control Property

Shareholders of Grand Trunk Railroad Lodge Petition With Government

Ottawa, Ont.—The shareholders of the Grand Trunk Railroad are seeking the recovery of their right to control the railway property, now an integral part of the National Railway system, or fair compensation for their shares.

To this end they have lodged a petition of right with the government at Ottawa, claiming a fiat to sue the Dominion of Canada for the restoration of their property.

The par value of the shares held by the shareholders amounts to about \$180,000,000, and presumably the alternatives before the government, if the law suit was successful, would be either to pay these shareholders \$180,000,000 or to surrender the Grand Trunk lines.

At the moment none of the ministers or deputy ministers concerned in this matter will discuss it.

Starving Crowds

Raid Food Stores

Hunger Crazed People In Bessarabia Attack Emergency Stores

Kishinev, Bessarabia.—Starving crowds of men, women and children attacked the emergency food relief stations here and smashed windows, wrecked furniture and seized the small remaining supply of food. To appease the hunger-crazed people the government relief committee has promised additional food supplies.

The government of Bessarabia, which has been the centre of a desperate famine because of crop failure, held a special meeting of officials to discuss further measures for relieving the situation which has been greatly aggravated because of the non-arrival of food trains which are marooned in heavy snow between Bessarabia and Bucharest.

Alberta Keeps Own Police

Province Prefers Not To Make Change In System

Edmonton.—The Alberta Government will not accept the offer of the Dominion Government, that the Royal Canadian Mounted Police shall take over the policing of this province from the existing Alberta provincial police force.

This much was made evident by Premier Brownlee in the legislature, and he gave as his reason the same reason that the Federal Government gave when they refused to remove the R.C.M.P. from the prairie provinces, that they intended to have their own statutes enforced by their own police.

Paying Visit To Japan

London, England.—The Duke of Gloucester will leave London at the end of March for Tokyo to meet Emperor Hirohito, of Japan, with the Order of the Garter. Determination of the date of the duke's mission was stated to have been made possible "in view of the improvement in the King's health." The duke's party will arrive in Japan early in May.

New Experience For Italy

Rome.—Ice boats and skis may be necessary to replace Venetian gondolas if the weather in that Italian city does not moderate soon. Ice has clogged up the canals and lagoons which serve Venice as streets and traffic there by means of gondolas has become most difficult. The temperature has been as low as 15.5 Fahrenheit.

Married In California

Los Angeles.—Sir Rodmond T. Roblin, Canadian financier and former premier of Manitoba, and Miss Ethel M. Leggett, of Los Angeles, were married at the Willshire Congregational church here, February 5. More than 100 guests attended the ceremony which was extremely simple.

Increase In Jersey Cattle

Toronto.—At the annual meeting of the Canadian Jersey Cattle Club held here reports of registration and transfers showed a marked jump in the figures for 1928, being 24,079, compared with 15,480 in 1927. J. W. McGillivray, Chilliwack, B.C., was elected a vice-president.

FORMS FINANCIAL BUSINESS

C. Rice-Jones, who, until recently, was vice-president of United Grain Growers, has gone into the financial business in Western Canada, and has established his own company, C. Rice-Jones and Co., Limited. To devote himself to this business he has resigned from the Vice-Presidency and from the Board of United Grain Growers, thus severing a connection which has continued during many years.

Prior to 1917, he was President and General Manager of the Alberta Farmers' Co-operative Elevator Company. He helped to bring about the amalgamation of that Company with the Grain Growers Grain Company to form United Grain Growers Limited, and since 1917 has been first vice-president of the amalgamated company.

He has many friends in all the Western Provinces, and in addition is well known in financial centres. Mr. Rice-Jones has established connections with financial houses in Toronto, Montreal and New York, and is completing an organization of representatives in western towns and cities.

C. Rice-Jones and Co., Limited will be located in the Curry Block, Winnipeg, where a general investment service will be given on stocks and bonds, and, in addition, the company will participate in the underwriting of new issues of securities.

Ottawa Athlete Killed

Plane Crashed During Solo Flight

At Camp Borden
Ottawa.—J. G. "Jerry" Ault, prominent athlete of this city, died as the result of injuries sustained at Camp Borden when the plane he was flying crashed. Mr. Ault, who was training for a pilot's certificate, was on a solo flight when his machine went into a tail spin.

A court of inquiry will be held at Camp Borden to determine the cause of the accident.

Enjoying Mild Winter

Copenhagen.—The Greenland Administration Department reports that the country was enjoying an unusually mild winter. There was virtually no ice or snow. It was said, and the temperature was equivalent to approximately 48 degrees Fahrenheit.

Injuries Proved Fatal

Workman For Paper Company

Caught In Gear Of Machine
North Bay, Ont.—Despite the effort of a gang of men armed with acetylene torches who cut through gears and shafts of a huge bleaching machine to release him, and the chartering of a special train to rush him to hospital, William Ashcroft, an employee of the International Paper Company, died from shock and loss of blood.

Ashcroft's leg was caught in the gear of the big machine, and, owing to the nature of the mechanism, the gears could not be reversed. The torches were immediately employed and the machine literally cut to pieces. A special train rushed him to hospital in Mattawa, where his right leg was amputated. The shock proved too severe and he died a few hours later.

Death Of Bremen Flyer

Baron Von Huenefeld Succumbs To Operation In Berlin Sanatorium

Berlin.—Baron Ehrenfried Gunthar Von Huenefeld, one of the three men in the aeroplanes Bremen, which was the first to accomplish without a stop the westward crossing of the North Atlantic, is dead after an operation in a Berlin sanatorium.

Born in Koenigsberg, the son of a Prussian army officer, Von Huenefeld was never strong. When he offered himself for service during the great war he was rejected on the score of his weak physique. He persisted, however, and was finally accepted as a motorcycle dispatch carrier.

Gain In Ship Production

Great Britain and Ireland Lead Lists In Total Tonnage

New York.—Lloyd's register of shipping has announced that an increase of nearly 20 per cent. in the world's production of merchant vessels was established in 1928.

Great Britain and Ireland, which lead the lists in total tonnage had the largest percentage and all maritime countries except the United States shared in a 400,000 gross tons increase over 1927.

Merchant tonnage launched in the United States was only slightly more than half the 179,218 tons aggregate for 1927, but Great Britain and Ireland gained 18 per cent. and all other countries combined 32 per cent.

Succeeds Late Major Bell

Ottawa.—The appointment of R. A. C. Henry, director of the bureau of economics of the Canadian National Railways, to be deputy minister of railways, succeeding the late Major Graham A. Bell, has been announced by the prime minister. Mr. Henry takes up his departmental duties with the same salary as his predecessor—\$10,000 per annum.

Will Meet In Geneva

Toronto.—The fifth conference of the International Federation of University Women will be held in Geneva from August 7 to 15.

AIR SURVEYS FOR LAST YEAR BREAK RECORD

Ottawa.—The pre-eminence of aerial surveying for mapping Canada on account of great speed combined with a wealth of detailed information was the keynote of the report of the Aerial Surveys Committee presented by B. W. Waugh, D.L.S., to the annual convention of Dominion Land Surveyors. Although aerial surveys were inaugurated in Canada only seven years ago, they are rapidly becoming a most popular method of mapping was the statement of the committee.

During last season, which was a record for Canadian operations, 66,143 square miles of territory were photographed by vertical and oblique photography. In Nova Scotia 2,570 square miles were photographed. In New Brunswick, 323; Quebec, 12,382; Ontario, 17,609; Manitoba, 7,935; Saskatchewan, 14,900; Alberta, 4,800, and British Columbia, 4,664. Altogether, 109,122 photographs were taken, said Mr. Waugh.

Not Delaying Treaty

Suggestion That Canada Is Holding Up Arbitration Pact Is Denied

London, England.—The suggestion that Canada is delaying the arbitration treaty between Britain and the United States, was stated in authoritative quarters here to be groundless.

The reason for the delay is that Britain and the United States are anxious to get the Kellogg pact, upon which they have been concentrating for some time, out of the way first, but the conclusion of the arbitration treaty is expected before long.

Observations were received from Canada a few weeks ago, and the other Dominions have also sent their views.

It is admitted that the question of setting up the arbitration machinery has been a matter of some discussion, but no great difficulties are anticipated, and there is no particular hurry.

Silver Bullion Shipped

Halifax.—Included in the cargo taken aboard the Cunard liner "Aurania," which sailed for Plymouth and London, were 240 bars of silver bullion on London option, and 93 parcels of clothing for the miners' relief fund of the Lord Mayor of London, the first shipment for this purpose to go forward from Halifax.

Zepplin Plans New Trip

Friedrichshagen, Germany.—The dirigible Graf Zeppelin is to start the end of February on a round trip to Egypt and Palestine.

For Influenza

The Liniment That Relieves All Ailments

Liquor Profits For Charity

Quebec.—In the legislative assembly Hon. Athanase David, provincial secretary, announced that the sum of one million dollars would be taken from the profits of the Quebec liquor commission next year and turned over to the charities bureau in further aid of charitable institutions.

WHAT WILL IT DO?

Women are saying: "Pinkham's Compound keeps me fit to do my work." "I was nervous and all run down. Now I eat better and sleep better." "It helped my thirteen-year old daughter." "I took it before and after my baby was born." "I am gaining every day."

Newest Lifeboat Gear

When the Canadian Pacific liner Duchess of Bedford arrived in
New York recently to start a series of cruises to the West Indies, the
crew, under the direction of Captain H. Sibboun and his officers, demon-
strated the efficiency of her up-to-date lifeboat gear in a fashion that
amazed the inspectors.

Shown above is the latest thing in lifeboat lowering equipment,
capable of lowering twenty-eight boats in ten minutes. The davits,
which are controlled by one man, slide down the rails until the boat is
at deck level. It is then lowered by gravity to the water and can be
released by trigger, the falls then being hoisted again and attached
to another boat which is nested on the same davit.

United States officials stated that this Welin-Macmillan gear was
the most efficient ever seen in New York.

Large cargoes of wheat are be-
ing shipped to Japan and
Orient through Vancouver these
days. It seems like sending coals
to Newcastle to send flour to
"The Flourery Kingdom."

Some foundation for the old
nickname "woolly" west is found
in the report that Alberta's wool
output for 1925 amounted to 3,053-
181 pounds. Although the Provin-
ce produced over eighteen and a
half million pounds.

Steel is replacing wood in freight
service on the Canadian Pacific
Railway as 7,500 box cars now on
order for the company will be of
steel construction. They will have
a capacity of about 5,000 bushels
of grain and a load of 120,000
pounds.

Fur-farming is developing many
branches, one of the most recent
being the organization in Manito-
ba of the Manitoba Muskrat Breed-
ers Association. The body plans to
study muskrat breeding condi-
tions and to investigate all phases
of the industry.

In a recent speech at Kitchener,
Ontario, E. W. Beatty, chairman
and president of the Canadian
Pacific pointed out that the aver-
age freight rate per ton per mile
in Canada is about 5 1/2 per cent
lower than in the U.S. and that
the average of Canadian grain
rates is 40 per cent lower.

The Trans-Canada will cross the
continent in an hour and a half
less time eastward, and an hour
less westbound than it did last
year. This does not mean that
Canada has got any smaller, but
that the Canadian Pacific Railway
is running the famous flyer on
an improved schedule.

Penny postage, inaugurated at
Christmas, is working well and
bringing about a notable increase
in letter mails from Canada to the
British Isles, according to federal
postal officials. It is estimated
that the increase in the course
of a year would be such as to
offset the \$200,000 estimated re-
duction in revenue by the penny
rate.

In Manitoba, there is one tractor
for every 4.6 farms; in Saskatchewan,
one for every 4.7 farms; and in
Alberta, one for every 7.5
farms. If all the tractors were
hitched together, how long could
it take a garage mechanic to reach
the moon.

For the sixth successive year
Dean Sinclair Laird of Macdonald
College, Ste. Anne de Bellevue,
Quebec, will conduct an all ex-
pense tour across Canada and
back, starting from Toronto on
July 22, and lasting for 21 days.
The party travels in a special train
with a baggage car filled up as a
sixty-foot dressing-room.

Equipped with a bow-rudder, a
new device that will aid in navi-
gating the harbours of Victoria
and Vancouver and the waters of
the British Columbia coast, the
Princess Norah has arrived on the
Pacific seaboard to join the fleet
of the B. C. Coastal services of the
Canadian Pacific Railway. She is
the eighteenth ship to be built for
this work and has just been con-
structed at the shipbuilding yards
on the Clyde in Scotland.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops and that colic or constipation is relieved; or diarrhoea checked. A vegetable product, a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use. In emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every drugist has it.

CHAPTER XIV.—Continued.

"To hell mit him!" shouted Hand. "He don't dare do it. Rush him!" But the mob did not obey their leader's rash command. Donald's pale face, and burning black eyes were sufficient evidence that he made no idle threat. Donald saw the big hand of his foreman stealing to the butt of the heavy coat that hung at his side. "Keep cool, Jack," he begged, "don't start anything!"

For days Gills had been without sleep. He turned bloodshot eyes on Donald. "By G—!" I would like to take a crack at Hand," he said in a voice thick with rage.

The hostile crowd did not advance; neither did they leave. Scattered in groups, they lay or sat on the hillside to shout occasionally words of derision at Donald's faithful crew.

Donald's nerves were on edge. At any moment there might be a

pitched battle with loss of lives. He studied the faces of the strikers to see how many were from his crew and was surprised to recognize fully 40 of his men. He saw "Blackie" in the rear of the crowd of strikers. When his eyes met Donald's he turned away shamefacedly. All the men from his camp refused to meet his gaze squarely. "Those men are ready to come back right now," he said to Gills. "Hand has bullied them into this. Don't you think so?"

"I don't know," answered Gills. "I never thought Blackie would go back on me. I'll wring his d—d neck when I catch him in town!" he added bitterly.

Donald heard a slight movement behind him, and turned to see Connie standing with her rifle in the crook of her arm.

"Good heavens! Connie, you shouldn't be here!" he exclaimed.

Connie's face bore traces of weariness and sleeplessness. For three nights she had stolen softly away from her cabin on the hillside to lie hidden outside that of Donald. By night she had kept up a weary vigil, ever on the alert; in the forenoon she had lain behind a stump on the hill with eyes on Donald's tall figure whenever he came to sight his rifle ready for instant action. Hand did not know that death had nearly claimed him when he stepped forward to urge his men to charge on the camp of the scoundrel. Connie's rifle was aimed at his heart.

"Get away from here at once, Connie!" said Donald, firmly, but kindly.

Connie lowered her eyes to her moccasined foot, that was waving at the heels of the dry soil, and shook her small head obstinately.

"Why do you wish to stay?" he asked.

She patted the stock of her rifle. "I—I want to help you."

Donald looked down at the weedy little figure. He stepped down from the stump, keeping a wary eye on the belligerent strikers, and came to her side. "Connie," he said softly, "you are a dear, brave little girl, but you must get away from this place as there may be serious trouble."

Please, Connie," he entreated, reaching out a hand to stroke her shining hair.

Connie's face paled quickly, and she shrank from the caress. Her slender body trembled at his touch, and his display of tenderness brought a sudden rush of tears to her eyes. But she made no move to leave the scene.

Finding that he could not shake Connie's determination to stay, Donald returned to the vantage point of the stump. "Jack," he said, turning to his big foreman, "I am going to make one last appeal to these men. If I am any judge of human nature about half of them if they can save their faces, will welcome the chance to go back to work. They are being dominated by Hand."

Gills shrugged his shoulders. "Do what you think best," he said. Donald passed the dynamite to Gills and stepped forward with his arms extended, palms upward. The crowd moved uneasily. Hand came slowly to his feet, his small eyes narrowed with suspicion.

"What's up?" he growled.

"Men," Donald began in a high clear voice, "I would like to convince you that you will gain nothing by your present tactics. Bloodshed will surely ensue. I have orders to refuse your exorbitant demands. Personally, I have no choice in the matter; there is no other course for me to pursue. In spite of your interference we will continue working with the few men who have remained loyal. I will ask for police protection only as a last resort. I appeal particularly to the men who worked for me here at this camp. Is there one of you who can truthfully say that you were not accorded fair treatment? Is there one of you who will not admit that the general equipment for your comfort is unequalled in any camp in British Columbia? You are making a mistake, men," he went on in a pleading tone, "a mistake you will be sorry for later, for you will be blacklisted in every camp in the country. Go back to work, and I promise you there will be no mark against you. That's all."

Donald walked back to Connie's side. The men had not interrupted him once.

Hand turned to the wavering

Christie's Biscuits

The Standard of Quality Since 1853

Safest and best for Children or Invalids because they are Christie's Arrowroot Biscuits.

In the store or on the 'phone always ask for

Christie's ARROWROOT

crowd. "To hell mit him and all capitalists!" he snarled. He turned to shake a huge fist at Donald. "You threaten us, do you? You d—!" The epithet that came from his coarse lips was one that would cause any decent man to sear red.

Donald stiffened. His face turned livid. "You dirty cur!" he flamed. "Don't you know that there is a lady present? You apologize to this little girl or I will whip you within an inch of your life!" His voice trembled with passion.

"Lady," scoffed Hand, "vat you call a lady? She must be nice lady, runnin' in do woods wit' you ev'ry Sunday."

A murderous look shot from Donald's dark eyes. A terrible rage possessed him, a rage that made his blood feel hot in his veins and gave him the unnatural strength of a madman. A dull red flamed in Connie's tanned cheeks. She sat down and covered her hot face with her hands.

Andy now came running from the cook-house, dressed in white cap and apron, his rifle trailing at his side. "What's goin' on, Connie?" he questioned.

Donald did not answer. Gills spoke to Andy in an undertone.

"My God, Connie, 'e's twice your size! Don't fight 'im!" implored Andy.

"I'll kill him!" rasped Donald. Gills seized his arm. "Let me fix the d—d skunk; he's nearer my size."

"No, this is my affair!" shaking himself from the grasp.

The round of a paddle came from below, and the trapper sprang from his dugout and came swiftly up the hill. As Andy briefly explained the

situation the old man's grey eyes narrowed to mere slits beneath the shaggy brows.

"Ah!" he breathed. "Me and Betsy," patting his six-shooter, "we likes to shoot up bohunks. We shoots them in the heel so's to save their clothes." His mouth was set in a grim smile, a smile that was belied by the steely look in his deep-set eyes. He seated himself on a log and placed his gun on his knees.

Donald had by this divested himself of coat and shirt and now stepped forward dressed in light cotton trousers, a sleeveless undershirt and moccasins. "Hand," he said in a steady voice, "this is between you and me. See to it that your men do not interfere; I will vouch for mine."

The big foreman was rubbing his big hands as though in pained anticipation. "I suppose you know how we las goin' to fight? Everything goes, you know." His grin was fiendish.

Donald knew what was meant. There were to be no rules of combat; no time duration; no referee; no rounds, and woe to the man who should go down. It was to be a battle as of primeval man. It might result in terrible injury and mutilation. He sickened at the thought.

(To Be Continued.)

A Clever Idea

The Durham Chronicle tells of a young man who visited a store in that town, purchased three dozen eggs on credit, took them to another store and sold them and used the money to buy gas for his car. This is probably the first instance of a thirty-six hen-power automobile.

A steadily increasing group of words making its way into the dictionary is that of dialectal, provincial and local words and expressions.

A Remedy For Earache.—To have the earache to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Edna: "Chivalry is dead. Can you imagine a man today like Sir Walter Raleigh spreading his coat for a woman to cross a mud-puddle?" Crawford: "He wouldn't have to. She'd jump it!"

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred. F. Avelil, 136-12th Ave., Calgary, Alta. writes:—"I was bothered so much with my heart I could not sleep. I would awaken up in the night screaming, and my heart would start pumping and pounding. A neighbor lady told me to try

so I started taking them and I can truthfully say I am a different woman. Altogether I only took two boxes."

WINDOLITE

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. while a square yard of glass of ordinary thickness weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

ECZEMA IN RASH ON HANDS

Troubled For Three Years.
Healed by Cuticura.

"I was troubled with eczema on my hands for three years. It appeared in a rash and then formed blisters. It troubled me much worse in winter so I could hardly put my hands in water or be near heat. My hands were terribly inflamed and disfigured. I had to wear old gloves to keep from scratching."

I saw a Cuticura Soap and Ointment advertisement and sent for a free sample. I got relief from it so I bought more and after I had used them for three months I was healed." (Signed) Miss Beatrice Alkan, Highwater, Que.

Use Cuticura Soap, Ointment and Talcum for daily toilet purposes. Sample Book Free by Mail. Address: Canadian Agents, The Cuticura Soap Co., Ltd., 100 St. George Street, Montreal, P. Q.

Stony Plain and District.

IT PAYS TO PAY CASE.

Wm Graaf shipped a car of baled hay on Saturday.

Messrs Max Bowser and A W Crane returned home on Monday from a vacation spent with friends in Kansas and Oklahoma.

Considerable grain is being shipped over the loading platform, at the present time, by local farmers.

Mr Val Mohr motored up to Stony from Lamont, on Saturday.

The Sun has been given to understand that the annual meeting of ratepayers of Inga M. D. will be held in Stony Plain on Saturday next, Feb. 16th.

Walther League News.

Sunday next, Feb. 17, will be a banner day for the local Walther League, the realization of several years' hopes and desires, namely the inauguration of English Lutheran services in Stony Plain. The Rev. Osterman of Blueberry will conduct the services.

Under the leadership of the new entertainment committee a good time was spent by all present at the regular social meeting on Sunday evening at St. Matthew's school. Interest and enthusiasm reached its height when "Bill" Miller with his team "the Alabama Niggers," carried off the honors in a speed and skill contest.

SPORT BRIEFS—Altho the mercury was hovering away below zero for a long time already, yet the baseball club has been at work. A concert is being planned to raise funds for the team for the coming year. The team intends to make an early start this season, since entering a League is the main issue at the present time.

New Chevrolet on Display.

Motorists and would-be motorists are flocking to the showrooms of Sommerfield & Mayer to see the first of the new Chevrolet Six-cylinder cars. Since the new model went on display visitors have commented on the remarkable achievement exemplified in these sixes in the price range of the four.

Mr Sommerfield said "General Motors made an investment of more than \$30,000,000 in the change from a 4 to a 6 confident the investment would be justified in the public's appreciation of the greater value received. The car now on display in our showrooms is the result of 4 years experimenting and testing."

To change over production from a 4 to a 6 in less than 2 months was an accomplishment unprecedented in industrial history. "Very little has been heard of this, outside of motor circles, because of smoothness with which it was handled," said Mr Sommerfield, "but nevertheless it has been described as the most remarkable industrial transformation ever accomplished. We are proud to be able to deliver the new cars as a result of this achievement, shortly after the receipt of orders."

Favorable comments on the appearance of the car were heard from visitors to the showroom. Sommerfield & Mayer extend to all a cordial invitation to call at their showrooms and look the new cars over.

For Sale, Purebred Angus Bull, 8 months old. A J Shaul, phone 1013.

H W. Wood, chairman Board of Directors, Alberta Wheat Pool.

Calendar.

FEBRUARY—
15—Wedding dance at Holborn Hall.
15—U. F. A.'s Novelty dance at Telfordville Hall.
19-20—John Deere Free Tractor School in Edmonton.
20—Nomination for Councillors in Municipal Districts.
22—Band's Whist Drive.
23—James Phelan auction sale, at Holborn.

Carvel News

The funeral took place on Saturday last of Mrs Adolf Kaus. Deceased had been taken to Edmonton for treatment, and passed away in a City hospital. Service was conducted by Rev Mr Freitag, of the Trinity Lutheran church, and interment took place in Mount Pleasant cemetery. She leaves to mourn her loss her husband; four daughters, Mary, Lydia, Elsie and Freda; and two sons, Dan and Ernest.

Golden Spike

Andrew Schultz of Golden Spike is reported to have purchased the farm of V M Hennig. The price is said to be \$6900. Mr Hennig is said to be negotiating for the purchase of the farm belonging to his father, Mr Michael Hennig Sr.

The appeal in the Spike fire case, which was to have been heard Tuesday last, was again postponed.

Wembley Briefs.

The weather here for the month of January was rather severe, but it has abated some and people are moving about freely. Everyone is looking forward to an early spring and a good summer.

A fairly large influx of new settlers is looked for in the spring.

Residents of the district were greatly surprised last week when their old friend, Mr Stuart C Elliot, whom they had known in Stony Plain, arrived here to take charge of the local branch of the Bank of Commerce. Since he left Stony, he has been accountant at the main branch in Edmonton.

Threshers' Act Amended.

An amendment to Threshers' Lien Act, now before the Legislature, provides that a thrasher who threshes different kinds of grain may take in satisfaction of his lien, grain of any kind, and is not to be restricted to taking out grain of each kind to satisfy his lien on that kind.

Spruce Grove News

The assault charge laid by Louie Groff against a Garden Valley farmer was heard on Tuesday in Stony. The assault is said to have happened in front of the local pool hall.

Wm E Bristow and Roy Nicholas Sherwin have been gazetted Commissioners for Oaths.

Altho the local roads are badly drifted in some places, grain hauling to local elevators is still the principal outdoor sport.

Several of the local families the members of which had been suffering from measles, are now well on the way to recovery.

Mr Dave Bell was up in Stony on Saturday last, assisting at the Advance Rummy demonstration being given there.

Rev C Keenan will be holding services at the Tomahawk Mission on Sunday next.

Holborn Happenings.

The dance given by the U. F. W. Friday was a huge success, as, predicted, the dancing floor, at times, being more than comfortably filled. The Barth orchestra, supplied the music, and everyone reports having had a good time.

Those who had come in cars to the Friday dance had their troubles on going home, owing to the roads becoming blocked with drifted snow. One party report taking six hours to go ten miles to their home.

Mr and Mrs Robert Woodley, the newly-weds, announce the holding of a wedding dance tomorrow evening (the 15th) in Holborn Hall. There should be, a record attendance, as we are advised everything is free.

Telfordville U. F. Local are holding a Valentine dance in their hall next Friday evening.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year.

Mid-Winter Golf Tourney at Victoria, B.C.

These photographs were taken on the beautiful Colwood Golf Course, Victoria, B.C., where the first Empire Hotel mid-winter golf tournament for the E. W. Beatty challenge trophy, will be held during the week of February 18. These pictures, taken on the 21st of January, give some idea of the summery aspect of Victoria's mid-winter weather. The hard-wood foliage is shed in the fall as elsewhere, but there is a wealth of evergreen at Victoria to make the fairways attractive and at no time during the winter is there sufficient moisture to spoil a round or to ruin the greens if played over.
